FOREWORD

We take pride in while entering 28th year of our journey in service of humanity. This has been a most enriching and learning experiences while working with the communities, government systems and the various key stakeholders. The present annual report is a brief account of our endeavors during last year i.e., 1st April 2019 to 31st March 2020.

During the reporting period, BSS implemented its projects in Ajmer, district of Rajasthan. We completed two years of prestigious partnership with Smile Foundation, who is supporting us to educate the rural poor in Ajmer district in Rajasthan.

Also, we have focused on improving our institutional capacity to respond to the needs of young rural populations in the education, health and rural development sectors including the improving our institutional infrastructure. Also, we did a reflection exercise on our past year's work in general and more specifically our action following the perspective plan of BSS. Let us acknowledge that the year of reporting has been a real challenge for us to sustain our school and skilling projects, in absence of adequate funding and resources. We need to focus more to mobilize at least minimum essential funding and donor base to sustain our initiated work.

I would like to take this opportunity to thank all our board members, advisors, supporters, mentors and contributors without whom many of our dreams to serve our communities would not have been actualized. It's time to acknowledge that much of our accomplishments are possible only due to untiring and selfless work done by the BSS project teams including a team of dedicated volunteers at the community level, our supporters and the stakeholders. Although our achievements are less insignificant when compared with the challenges and tasks ahead of us; we keep on reinforcing our commitment towards vulnerable communities, as well as continue to drive our inspirations from them.

Last but not least, we express our sincere thanks to our donors, direct and indirect contributors namely, Smile Foundation, Toshniwal Industries, Individual donors, and the local Panchayats/PRI's who made our work possible by contributing the essential resources and proving us all the valuable support.

With sincere gratitude

Priyamvada Singh, Ph.D
Founder Chairperson

Current Projects

Bal Sansar Public School (BSPS), Ajmer

Objective

To provide quality education to the children from 2+years to the senior school level

We believe that education is the building block of an individual's life and that each child has right to education. With good education most of the social problems can be solved. With this aim in mind we started BSPS in Ajmer during the academic year 2013-14 with prime focus on girl's education. Since then the school has grown continuously year over year and currently we have classes running from pre-primary to class 5th. We intend to provide quality education to all the underprivileged education who cannot afford it. We plan to expand our schooling facilities in terms of infrastructure, faculty etc. in the near future in order to grow from a primary to a higher secondary school.

Bal Sansar Public School (BSPS) aims to:

- ✓ Provide quality pre & primary education to rural children in Ajmer district; gradually to upgrade up to elementary & then senior secondary levels.
- ✓ our pre-school education is a school readiness programme with development of multiple intelligences of children with age appropriate physical and life-skill activities, cognitive training of senses and creativity of children.
- ✓ BSPS attempts to provide culturally sensitive, environment friendly quality education leading to all-round development opportunities to its students (*who mostly come from economically weaker section and many are even first-generation learners in their families*).

As it is well said, ***"When you educate a man you educate an individual but, when you educate a woman. you educate a family". And it is also true that an educated girl and empowered women improves the lives of all her family members, her community and the country.***

Our pre-school education is the school readiness programme with development of multiple intelligences of children with age appropriate physical and life-skill activities, cognitive training of senses and creativity of children. The Primary school (till 5th standard) is approved by the Govt. of

Rajasthan and from session 2018-19 school has been upgraded to middle level by Govt. of Rajasthan. Current session has enrolled 154 kids from the surrounding villages, most of them come from humble background (90 percent parents are engaged in labour with poor paying capacity). We aim to provide them quality education enabling them to claim equal development and growth opportunities in the life.

Ninety percent beneficiaries of Bal Sansar Public School (BSPS) come from poor, marginalized communities and most parents of these students are illiterate and daily wage earners. Most of them belong to 'Cheeta', 'Meraat', 'Rawat' scheduled castes still following child marriages, child labour, extensive use of alcohol and many other socially ill practices. To introduce life changing interventions, we are not only working with children in school but also with their parents to change their mindset and behaviours to make it supportive to their children's education and overall development.

Sambal: The Skill and Entrepreneurship Development Institute-SEDI

Objective

SEDI aims to address the skill building needs of rural women and youth for their overall development, livelihood and quality survival.

The need for giving emphasis on the Skill Development, especially for the less educated, poor and out of school youth has been highlighted in various forums. The skill level and educational attainment of the work force determines the productivity, income levels as well as the adaptability of the working class in changing environment. Large percentage of population in India is living below poverty line. One of the important causes is lower percentage of skilled persons in the workforce

The skill development at present is taking place mostly in the informal way, i.e. persons acquire skill at the work-place when they help their parents, relatives and employers etc. Such persons do not have a formal certificate and thus earn lower wages and are exploited by employers. They have come through informal system due to socio-economic circumstances of the family and the compulsions of earning a livelihood rather than attending a formal course. While their productivity is low, their contribution to the national GDP cannot be ignored. If the country can create a system of certification which not only recognizes their skills but also provides education and training in a mode that suits their economic compulsions, it will not only benefit the workforce to earn a decent living but also contribute to the national economy by better productivity of this workforce.

Another related problem to be tackled is large number of students drop outs (About 63% of the school students drop out at different stages before reaching Class-X). Very few opportunities for skill development are available for the above referred groups (out of school youth & existing workers especially in the informal sector). Most of the existing Skill Development programmes are long term in nature. Poor and less educated persons cannot afford long term training programmes due to higher entry qualifications, opportunity cost etc. Hence, we decided to focus on providing the youth with employable skills through short term courses.

SAMBAL will help rural youth to live their lives with respect and dignity while exploring their fullest potentials in life. To begin with, the activities of this institute have been started in Ajmer district. Based on the requirement of the industry, we train our students and help them in getting employed. We have trained women and youth in the area of computer education, sewing and photography. Recently we have been approved as a registered TI training centre by the Rajasthan Knowledge Corporation Ltd., Government of Rajasthan. In association with them we are running two certification courses, which are, RS-CIT (Rajasthan State Certification Course in Information Technology) and RS-CFA (Rajasthan State Certification Course in Financial Accounting).

We are now also initiating a project on the Hotel Management where we intend to train the youth based on their qualification in the various areas of Hotel management.

In FY 2019-2020, a total of **11 participants (6 girls and 5 boyes) were enrolled in RS-CIT**, all have completed their courses and got the certification from the government of Rajasthan. **Additionally, a total of 39 participants (15 girls, 24 boys) taken part in the summer camps** for Computer, Volleyball, Dance, Mehndi, Games, Art and Craft courses and have completed their certificates, the beneficiary details are given below in table 2.

Summer Camp

A summer camp or sleepaway camp is a supervised program for children or teen agers conducted during the summer months in some schools. Children and adolescents who attend summer camp are known as campers. Summer school is usually a required academic curriculum for a student to make up work not accomplished during the academic year, whereas summer camps can include academic work, but is not a requirement for graduation. To educate and create awareness among them about various issues like the Environment, Nutrition, etc.

The traditional view of a summer camp as a woody place with hiking, canoeing, and campfires is changing, with greater acceptance of newer types summer camps that offer a wide variety of specialized activities. For example, there are camps for the performing arts, music, magic, computer programming, language learning, mathematics, children with special needs Yoga, and weight loss. The primary purpose of many camps is educational, athletic, or cultural development. A summer camp environment may allow children to learn new skills in a safe and nurturing environment. 38 students were attended this summer camp classes. स्पर्श अभियान में ढाई लाख बच्चों को गुड टच-बैड टच के बारे में समझाया

कार्यालय संवाददाता | टोंक

श्रम कौशल नियोजन एवं उद्यमिता कारखाना एवं बॉयलर के शासन सचिव एवं राजस्थान कौशल एवं आजीविका विकास निगम के अध्यक्ष आईएस नवीन जैन ने कहा कि बच्चों के साथ होने वाली अन्यायी घटनाओं से खुश होकर आगस्त माह 2018 से बच्चों को इनमें बचाने के लिए जयपुर से स्पर्श अभियान शुरू किया। इसमें गुड टच-बैड टच की थीम पर बच्चों को उनके साथ होने ऐसे अपराध से बचने के लिए जागरूक किया जा रहा है। शुरूआत में एक लाख बच्चों को लाभांशित करने का उद्यम था, लेकिन स्पर्श टीम के प्रयास से अब तक प्रदेश की करीब 700 शिक्षण संस्थाओं में ढाई लाख से अधिक बच्चों को इस अभियान के तहत गुड टच-बैड टच के बारे में बताकर ऐसे अपराधों से बचने के तरीके बताए जा चुके हैं। इसमें शनिवार को टोंक व निवाड़ी के भी 13 हजार बच्चे शामिल हैं। उनके अलावा इस अभियान से प्रदेश भर में कई वॉलेंटियर जुड़ चुके हैं। वे भी स्कूलों में जाकर बच्चों को ऐसे अपराधों से बचाने के लिए जागरूक कर रहे हैं।

आईएस नवीन जैन ने भास्कर से बातचीत में कहा कि अलगाव के खंडूली में बच्चों से रेश व हत्या का मामला हो या फिर हैदराबाद

टोंक | स्पर्श अभियान की शुरुआत करने वाले आईएस नवीन जैन शनिवार को टोंक आए तो उनकी टीम ने अब तक इस अभियान में ढाई लाख बच्चों को लाभांशित होने पर उनसे केक काटवा कर खुशी जाहिर।

की डॉक्टर के साथ रेप व जलाकर हत्या करने का मामला, घोर अपराध है। ऐसे अपराधियों को कड़ी से कड़ी सजा मिले। इसके संस्कार संवेदनशील है। प्रदेश सरकार तो ऐसे एक मामले में पहले भी अपराधी को जल्द कड़ी सजा दिलाकर नज़ीर पेश कर चुकी है। उन्होंने कहा कि ऐसे अपराध कम हो और बच्चे ऐसे अपराध के शिकार ना हों, इसके लिए ही हमारी टीम शनिवार व रविवार को शिक्षण संस्थाओं में जाकर बच्चों को गुड टच और बैड टच के बारे में बताकर उन्हें जागरूक

कर रही है। उन्होंने कहा सक्की सामाजिक दायित्व समझे हुए फेसबुक से हटकर जमीनी भरातल पर आकर बच्चों को रेप समेत अन्य अपराध से बचाने के लिए प्रयास करना चाहिए। इस दौरान उनके साथ वॉलेंटियर विजेश पंढरवाल, शिवप्रताप गुर्जर, सैयद शाहिद, अफरोज समेत कई लोग थे।

स्वयं के सार पर चला रहे हैं यह अभियान

आईएस जैन ने बताया कि यह अभियान स्वयं के खर्च पर चला

रहे हैं। जिन स्कूल में जाते हैं वहां करीब 45 से एक घंटे तक सरकारी स्कूल भवन का उपयोग करते हैं। जल्द पढ़ने पर पुलिस, प्रशासन से भी सहयोग लेते हैं, लेकिन आर्थिक रूप से किसी पर भार नहीं डालते, सब वॉलेंटियर अपने खर्च पर ये अभियान को सफल बनाने में लगे रहते हैं।

टोंक की 30 स्कूलों में कर चुके हैं यह प्रोग्राम

आईएस जैन ने बताया कि स्पर्श प्रोग्राम टोंक शहर की 30 स्कूलों

में चलाया गया है। इसमें छात्र-छात्राओं को गुड टच-बैड टच के बारे में बताया गया। इसमें छात्र-छात्राओं को समझाया गया कि इस समाज में कई प्रकार की मानसिकता वाले व्यक्ति रहते हैं। उनमें से लोग गलत मानसिकता रखते हैं। यह बच्चों के साथ गलत हरकत करते हैं। इसका ताजा उदाहरण टोंक जिले के अनाईवाड़ कस्बे के खंडूली गांव का है। हम सब इन सब से बच सकते हैं। इसके लिए हमें खुद को जागरूक होना पड़ेगा और अपना बचाव खुद करना पड़ेगा।

इस पर प्रोग्राम के तहत आईएस नवीन जैन ने शनिवार को जिला मुख्यालय की सेंट गैलोर स्कूल, संस्कृति स्कूल और सेंट फ्रेंचिस स्कूल में स्पर्श अभियान के तहत अपना प्रोग्राम देकर बच्चों को गुड टच-बैड टच के बारे में बताया। उनके साथ आई जयपुर टीम ने भी इन स्कूलों में बच्चों को गुड टच और बैड टच के बारे में जागृत किया। इस अवसर पर स्पर्श वॉलेंटियर विजेश पंढरवाल, शिवप्रताप गुर्जर, सैयद शाहिद, मोहित लोदी, अफरोज समेत कई व्यक्तियों ने सेवार्थ दी। नवीन जैन ने समाज से आग्रह किया कि वह भी स्वयं आगे आकर समाज के लिए ऐसे बच्चों के लिए कुछ करें। उन्होंने कहा कि सप्ताह में 1 दिन पूर्ण रूप से बच्चों के लिए समर्पित करें।

SPARSH is attaining new heights every day and having been associated with it since beginning (even before that) gives an immense feeling of proud.

Frankly speaking this is something we have never expected when we started SPARSH 3-4 months ago with 3-4 team members. These members have now been converted into more than 500 SPARSH mates and covered 300k students.

Yesterday eve got the honour to introduce SPARSH at National Skill Summit under safe Childhood Awards ceremony in front of Chief Guest Hon'ble Minister Woman and Child Development Mrs. Mamta Bhupesh and lead of SPARSH campaign Sh. बेटियाँ अजरअदम
 जून की जन्मी, तपती टोपकरी में,
 पैर की उलकी, धनी छोर हूँ बेटियाँ ।
 जन्मी , तपती रेगिस्तान में,
 शीतल जल की धार हूँ बेटियाँ ।
 शहरी की भीड़ भी आसमआस में,
 गाँव की सुनसारी, बरिचारी पीपल हूँ बेटियाँ ।
 भागरी, दीहरी, उलझरी जिन्दगी में,
 खिलखिलारे, प्यारे, बच्चे की गजबोका हूँ बेटियाँ ।
 अकाली, उदार, बोझिल की शास में,
 दूर देश से आया, बेटिया का पंजरे कोमल हूँ बेटियाँ ।
 अजजाने शहर और जोजय के खान-पान में,
 माँ के हाथ-काँ सेर, दाल-भात हूँ बेटियाँ ।
 उदार-पदार, भाव-अभाव, सुख-दुख के बीच में,
 हमको मिला, केशव का अजसोब बरदान हूँ बेटियाँ ।
 बेटियाँ हैं तो सुरक्षा है, धरती है, मुख है, सहाय है ।
 बेटियाँ हैं अंध, बर, मरम, पहचान, और सुकून भी ।

जन नायक श्रद्धेय अटल जी को हादिक श्रद्धाजलि!

हम सबके परम आत्मीय श्रद्धेय अटल जी,

आज आप सशरीर हमारे बीच नहीं हैं किन्तु जन-जन के हृदय में किसी न किसी स्मृति के रूप में सदा के लिए बसे हुए हैं। पिछले पूरे दशक आप सार्वजनिक जीवन में सक्रिय नहीं थे फिर भी आपका हमारे बीच होने का अहसास बहुत सुकन करा था। आपके ना होने का विश्वास करना मुश्किल है, मन बहुत दुखी है, बिनकुने वैसे ही जैसे किसी परिवर्जन को खो देने पर होता है।

आप जा जाने मेरे जैसे कितनों के लिए प्रेरक, प्रेरणा-स्रोत, मार्गदर्शक, नायक, आत्मीय और श्रद्धेय रहे हैं और सदा रहेंगे। आपने, व्यक्तिगत और सार्वजनिक जीवन में जिस शुषिता और जिन उच्चादासी का उदहारण प्रस्तुत किया है वह अतुलनीय है।

26 वर्ष पूर्व सिध्दे मर मेरे एक पत्र का आपसे उत्तर पाकर, आपसे मार्गदर्शन पाकर, मैं उनसाह से भर गयी थी। बच्चों के जीवन में एक गुणवत्ताक परिवर्तन लाने का एक छोटा सा ईमानदार प्रयास 'बाल संसार संस्था' www.balsansarindia.org के माध्यम से जो मैंने तब शुरू किया था उसे आपकी सहायता पाकर, आज भी निरंतर बनाये रखा है।

सीमित संसाधनों के बीच स्वैच्छिक प्रयासों को निरंतर रखना और लाभ निरपेक्ष बने रहना किसी पवैत सी पुनीती से कम नहीं रहा किन्तु यह भाव हमेशा बन देता रहा कि "देश अपना, लोग अपने, समस्याएँ अपनी, तो निराकरण और प्रयास भी हमारे ही होने चाहिये, और कौन करेगा" ?

आपने अपने पत्र में देश में बच्चों की जिन समस्याओं / आवश्यकताओं का उन्नेख किया था वे आज भी विद्यमान हैं। बच्चों के स्वास्थ्य, सुपोषण, सुशिक्षा, सुरक्षा, समता वर्धन और समता-पूर्ण विकास के लिए निरंतर और जन-आन्दोलन के रूप में काम किये जाने की गुरुतर आवश्यकताएँ आज भी 'स्वैच्छिक और लाभ निरपेक्ष' प्रयासों की प्रासंगिकता को रेखांकित करती है।

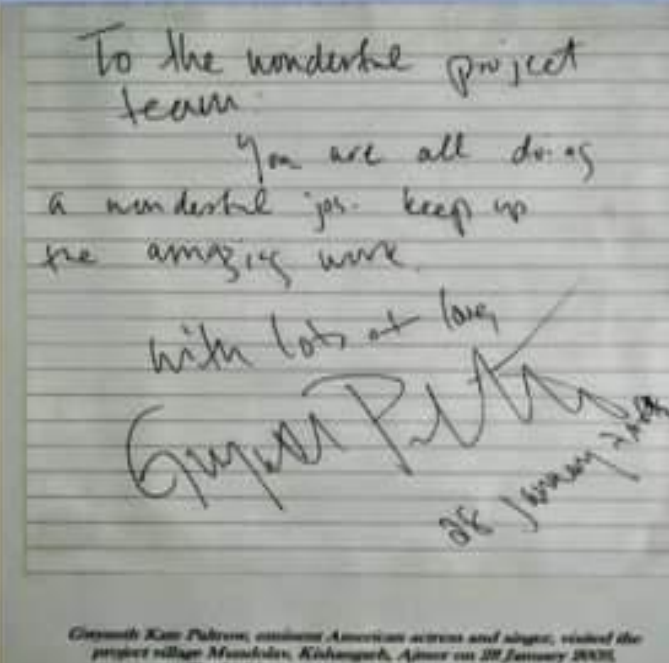

आप सदैव हमारी स्मृति में, मन में, रह कर हमें प्रेरित करते रहेंगे और हम एक स्वच्छ, सुपोषित, सुशिक्षित, स्वस्थ, समता-पूर्ण एवं गौरवशाली भारत की विकास यात्रा में निरंतर सहभागी बने रहेंगे।

हमारे आत्मीय, जन नायक श्रद्धेय अटल जी को हादिक श्रद्धाजलि।

While looking into my old files, I found this album, am happy to share #Social-Media for the first time. I realise that it has been a decade since I initiated working on the issues around #Malnutrition to improve the #quality of life of #Pregnant #Lactating #Mothers and their #Babies in #Rajasthan.

- January 28, 2009 Gwyneth Kate Paltrow visited a small #village named Mundolao in #Kishangargh block of #Ajmer district.
- She spent almost entire day vising our #RMNCH & #Nutrition project beneficiaries, #Pregnant #Lactating #Mothers and their #Babies at their homes, at #AWCs, understanding their #dietary practices, locally available food items, #behaviours.
- She was interested in knowing the challenges and issues that project was facing and attempting to address in partnership of #IHAT #SaveTheChildren, government and the target communities in #Rajasthan #India.

Her appreciation note on our efforts is being shared; it was a pride for me to lead that innovative project intervention & the excellent team.

Positive Gossip by Dr. Shipra Mathur

Dr Shipra Mathur, Consulting Editor

Arrogant Men But Women Silent Adopters

Jalpur, India - The bed is the ultimate resting place for men and women. It is here we all draw pleasure, comfort and fulfill carnal desires also. I remember more than a decade ago, when internet was not in easy reach of all and the mobile had not revolutionized India, a popular news magazine released an issue containing a sex survey on Indian couples. The edition was such a hit that almost everyone knew about it, and this 'very special' edition was removed from the reach of students in college libraries on the pretext of having porn content, but I knew that it was rather much in demand and the subject of discussions among the teaching and management fraternity. This hypocrisy on sexual matters is a hallmark of Indian society which has the larger national concern to have birth control methods to not compete with China on the front of population expansion at least.

How a country, with the ancient Sanskrit treatise on sexuality and eroticism 'Kamasutra' talking boldly on virtues, wealth and romantic love, fell into the trap of sex-stigma must be a matter of social science research. But the truth is porn sites and videos are filling the vacuum in every adult life which should have been filled with love and love coaches instead. Attention on behavior in personal lives is all the more urgent now with rising sexual crimes against children and women overshadowing mature discussions on sex, love and fertility. Love cannot of course be forced upon, but most men have used their power, derived from the patriarchy norms, to resist contraceptive methods and put the entire burden of it on women.

Data proves it better. Only 0.3 percent men in India use contraceptive methods while 36 percent women adopt it. This is despite the fact that male vasectomy and contraception are medically less complicated and safer. The latest National Family Health Survey (NFHS-4) has shown a decline in the use of contraception, but Economic Survey of India has indicated drop in population growth which definitely is a reason to rejoice. Apparently, women of India must take all the credit of this. They are more disciplined, easier to deal or connect with and not so ignorant now about their reproductive rights and health.

I remember while working in a mainstream popular print media, a budding journalist researched on condoms for women, interestingly he was not shy sharing it with me. I encouraged him to submit the story to the city desk to see the fate of the story. It was part of our social experiment to also see how people on the desk and city editors would react to it. I waited for the story to appear in due course with some intelligent editing, but as expected it was killed without any discussion in the newsroom. These are still hush-up subjects and male vasectomy is entirely missing from our discourse and policies. It can be inferred easily that both have given up on men. Some also mention the dark chapter of forced sterilization during the period of emergency, when Sanjay Gandhi, son of Late Prime Minister Indira Gandhi, dictated policies which backfired, and henceforth every political party kept men beyond the radar of family planning strategies.

Prakashi used 'Anarta' injectable promoted by government for spacing between two children

But it is as warped an argument as is the recent demand by some politicians to take away voting rights of those having more than two children. India advocates two child families, but it has not adopted coercive or punitive policies, except in emergency period, to implement this norm assuming it will be effort intensive with no assurance of outcomes. Though, at grassroots politics, some Indian states have made it mandatory to have two children in order to be eligible to contest elections and in government service (civil service rules) also, opportunities were linked with two child norms later to be relaxed after being challenged on their legality.

India was the first developing country to launch state sponsored family planning program in 1951

and now National Population Policy (NPP) emphasizes on enabling environment to have better choice through improved gender policies, better child survival, maternal health and contraception addressed comprehensively. The NPP has the target to reach total fertility rate of 2.1 children per woman by 2045. Since 2017 the family planning target is voluntary where it is the prerogative of the person to choose the method of their choice and comfort. And all the efforts are directed at women only. Nirma, a community health worker (ASHA - Accredited Social Health Activist) shares that condoms are freely available at government health centers but no man ever enquires or uses it in her village. She has not heard male vasectomy talked about or even thought of as an option at all. She shares that women are very receptive and take charge of their reproductive choices without any hesitation now. The government schemes of direct benefit transfers in banks as an incentive for their nutrition, sterilization and education needs have created a favorable environment with better delivery systems than before and at governance levels there is clear understanding about options and services doing more good than state control.

more have average 1.7 children. Hence, nationally, there are efforts to encourage girl education as impacts every aspect of development. It is still scary to see average child birth rate as high as 3.41 and 3.04 in Indian states like Bihar and Meghalaya respectively, where there is lowest use of contraception also. It is noticeable that when men are not in focus of population policies and all education and information on birth control and spacing is transferred through women, male arrogance and misconceptions in matters of sex, love and contraception, will be hard to bury. Surely, the best way is graded sex education and dialogue which must start right since the age of puberty in schools, but the system is still not oriented to impart it despite much openness because of cell phone penetration now in urban and rural India alike. The worry is also about that set of population of men who are already out of education cycle, part of work force and in reproductive age group. They are beyond the easy reach of health workers. They all can be taught about safe-sex and to restrict it at will only if 'Kamasutra' can reincarnate in their smartphones as a close counsel. This seems the only hope to talk sense, keep both

Completed Projects (in last five years)

Tayari Project

Duration: - May'12 to August'15

Nature: Adolescents Empowerment

Areas Affected: Tonk, Ajmer and Jaipur District

Taiyari which means "preparation", we prepared the youth by sensitising them about the various inequalities existing in the society and preparing them to deal with this in life by creating further awareness. They would act as brand ambassador of the program. We also helped them in smooth transition from the adolescence phase to adulthood phase.

This project was funded by UNICEF.

Impact

We have been instrumental in impacting the lives of 1800 individuals directly and 20000 individuals indirectly. The project has covered 30 Gram Panchayats (300 PRIs) with 15 in Srinagar block of Ajmer district and 15 in Tonk block of Tonk district.

Bal Sansar Sanstha and Dimagi (www.dimagi.com) have engaged in to the partnership to introduce use of technology in 'Taiyari'. It's a USAID funded additional component thru Dimagi. We'll develop a cell based application to enhance the 'Taiyari' outcomes.

Samvaad Manch: In the meetings and workshops of the Samooh members, they were introduced to a person who has done something for the society, who can provide motivation and a speech by the person was organized. This helped in motivating the adolescents and also provided them necessary support.

Organizing haemoglobin tests and distributing IFA tablets: The Samooh members were made aware about the importance of haemoglobin and iron in the blood. The guardians of the girls of the group were contacted and they were also made aware about the importance of haemoglobin for the girls. As a result haemoglobin tests were conducted for the girls and IFA tablets were distributed in large numbers who were lacking in haemoglobin. This was conducted not just for the Taiyari members but also for the non-Taiyari members.

Organizing Taiyari Fair: A Taiyari Fair was organized in both the districts in which the adolescent boys and girls and representatives from different government organization participated. This fair was completely managed by the Samooh members and many of them expressed their thoughts and views freely in front of a large audience.

Development of a Mobile App for discussion with adolescents: Technology played a major role in the Taiyari Project. To generate interest and making the knowledge transfer interesting a mobile app was developed in association with Dimagi organization. The aim of this app was to increase the awareness level of the adolescents in an innovative and interesting way and hence Mobile Commcare app was developed which had four modules. Under this module adolescents were asked questions and if they couldn't answer, necessary information was provided to them.

Composite Target Interventions (TI)

Duration: - March'11 to March'15

Nature: Healthcare, AIDS

Areas Affected: Tonk and Dungarpur District

The project was aimed at stopping spread of HIV in high risk communities. We targeted sex workers and homosexuals. We counselled these communities about safe sex practices and educated them about AIDS and other sexually transmitted diseases (STD). We also educated other people in these communities about discrimination related to HIV infected people. We provided them the required medical treatment. All this helped the people living with HIV to live a life with dignity.

We got funding for this project from Rajasthan State AIDS Control Society (RSACS).

Activities

Community mobilization, providing peer counselling for safer behaviour adoption, condom promotion, treatment of STI, referral for HIV testing, treatment and support services through greater involvement of PLHIV while creating an enabling environment that is stigma and discrimination free.

Impact

A total of 1400 lives were impacted through this initiative with the breakup of 1000 female sex worker and 400 homosexuals (men).

A proposed architecture of the school building is attached below. Please also find below a rough estimation of expenditure which will be required to develop the proposed building.

Note: We have a 10000sq yard land in Hathikhera village, Ajmer.
