- ✓ Bal Sansar owns a Maruti Eco to manage basic movement /mobility for the field operations.

**H. Our Current Projects**

1. **We are running Bal Sansar Public School (BSPS), Ajmer** since April-2013. BSPS aims to provide quality education to the children from play group to elementary level (till grade 8th), under private school registration rules of the government of Rajasthan. Further, we aim to provide quality education till senior secondary level in proximity, particularly in the case of girls. The main reason for girls' dropout after fifth and further after 8th grads' education is 'not being allowed to go far from their village' to continue their education till senior secondary, and beyond. Our pre-school education is the school readiness programme with development of multiple intelligence of children with age appropriate physical and life-skill activities,

cognitive training of senses and creativity of children. The 2023-24 session enrolled 120 kids (with a ratio of 60:40 girls: boys) from the surrounding villages, most of them come from humble background (80 percent parents are engaged in labour with poor paying capacity). We aim to provide them quality education enabling them to claim equal development and growth opportunities in the life. Only 50% children pay their fees (which is very nominal), and we are running this school with lots of financial difficulties. Parents are daily wage labourers and education of their children is not a priority for them.

We need to mobilize resources to develop essential infrastructure, setting up smart classes, improving seating arrangements for the students, and even support our faculty /school operations and hence, we appeal to the people who can afford to spare some of their earnings for these poor children / supporting their education and development (*even contributing as minimum as INR 2500 (or 30 USD) per month will support education of two children*).

**Update on BSPS:** From March 2020, schools were shut down following the Covid-19 guidelines issued by the central and state governments. In Feb.2021 the schools were opened following the government's guidelines allowing reopening of schools. However, it didn't continue for long and next guidelines are issued soon to close the schools till next orders. Considering the increase in covid positive cases, it seems, schools are not opening soon, particularly for the primary and elementary classes.

- ✓ Our team worked on spreading awareness on the Covid-19 appropriate behaviors and counseling the parents and children to keep their mental health and wellbeing as a priority.
- ✓ Throughout the lockdown period, students were being regularly supported by the BSPS teachers as their voluntary action, in conducting the final exams, preparing results, and promoting students to the next grades. All 156 students were promoted to the next grades, in both the academic years i.e., 2020 and 2021. Next academic sessions 2021-2022, 2022-2023, 2023-2024 and 2024-2025 were regularized by re-building our strengths and mobilizing resources.

## 2. 'Taiyari' Planned Transition from Adolescence to Adulthood – Phase-II

As a result of 'Taiyari' project outcomes during phase I, two evident support needs that expressed by the adolescents were:

- ✓ Support to dropout girls to continue their education at secondary and senior secondary levels. This was one of the most successful indicators of 'Taiyari' phase I, the organization was able to support more than 50 girls with education at secondary and senior secondary grades through state board of open schooling under the 'Back to Education' initiative.
- ✓ Support for skill trainings that would prepare them for jobs as well as expanding their potentials to earn their livelihood. In response to this demand, the organisation has initiated its skill development programmes under the name of 'Sambal: The Skill and Entrepreneurship Development Institute – SEDI'.

**'Sambal: The Skill and Entrepreneurship Development Institute-SEDI' (April-2013- continued):** The Project Goal: SEDI aims to address the skill building needs of rural women and youth for their overall development, livelihood, and quality survival. This will help rural youth to live their lives with respect and dignity while exploring their fullest potentials in life. To initiate with, the activities of this institute will take place in Ajmer district. We have initiated the action to take-up the SEDI as one of the BSS projects. Currently, computer education, photography classes and sewing courses are initiated. BSS has been approved as a registered TI training centre by the Rajasthan Knowledge Corporation Ltd. (RKCL), GoR <http://rkcl.in> for running two courses namely RS-CIT (Rajasthan State Certificate Course in Information Technology) and RS-CFA (Rajasthan State Certificate Course in Financial Accounting). Over 250 youth completed RS-CIT and sewing certificate courses with three month's durations.

- ✓ **Update on SEDI:** Due to continuous lockdowns during Covid-19, the SEDI admissions are badly affected and for the entire period of the next 2 years, there are no admissions. During 2023-2024 session, we had 25 admissions, and during 2024-2025 we managed to reach 35 mandatory admissions. The government has increased it to minimum 50 admissions to be eligible for continue the operations as Gyan Kendra. During 2024-2025, we were not able to achieve this number and

hence, the center has been closed (state wide, many centers closed, due to this change).
